SUMMARY

Associate - System Engineer at eMarketingEye, leveraging a strong background as a Junior SOC Analyst at CryptoGen to bridge infrastructure management with proactive security. Experienced in enterprise server and network platforms, system triage, and infrastructure event investigation. A top 2% TryHackMe learner who combines an analytical, defensive mindset with hands-on technical support to ensure high system reliability and performance.

PROFESSIONAL EXPERIENCE

Associate - System Engineer at eMarketingEye Pvt Ltd.

June 2026 - Present

Junior SOC Analyst at CryptoGen Pvt Ltd.

Nov 2025 - June 2026

- Monitor and investigate security alerts across FortiSIEM, Google Chronicle SOAR and CrowdStrike EDR/XDR platforms in a 24/7 shift-based SOC environment.
- Wrote Cyber Threat Intelligence (CTI) advisory reports to inform stakeholders of emerging threats, indicators of compromise (IOCs) and recommended mitigations.
- Perform alert triage, incident investigation and escalation in alignment with established incident response playbooks and SLAs.
- Conduct log analysis and correlate security events to identify potential intrusions, anomalous behaviour and policy violations.
- Maintain detailed shift handover documentation, ensuring seamless continuity of monitoring and active incident tracking between analyst shifts.
- Collaborate with senior analysts on root cause analysis of security incidents

Graphic Designer at Beyond Brand Media LLC.

Sep 2025 - Nov 2025

- Delivered high-quality visual assets for digital marketing campaigns in collaboration with international teams.
-
